About Citizen Space

Citizen Space transforms how governments connect with citizens via our end-to-end consutation platform. Publish information, gather feedback then analyse and publish results from one centrally managed platform.

From high-profile national conversations to neighbourhood issues, our powerful, flexible platform makes engagement simpler for everyone involved.

About Delib

We're are a global, distributed team of around 30 people working across the UK, USA, Australia, and New Zealand.

We have been building engagement and democracy tools since 2004 and Citizen Space, our flagship platform, is purpose-built for government consultation, regulatory process, and citizen engagement, trusted by 600+ organisations worldwide.

Publish more, faster
Access pre-built formats for surveys, event sign ups, mailing lists, and statutory processes so teams launch in minutes instead of building from scratch each time.

Compliance by design
ISO 27001:2022, Cyber Essentials certified, accessibility tested against WCAG 2.2 AA with in-territory data hosting and a 99.95% uptime guarantee.

Flexible and customisable
Integrate with tools your team already uses and trusts. From Microsoft Power BI to SharePoint, Azure, and AWS services.

Best in class support and service
Backed by 30+ years' combined public sector experience, our dedicated in-territory team resolves 66% of requests the same day, with regular check-ins and strategic reviews built in as standard.
